3. Restart the computer after the installation is complete.

ACTIVATION OF A PROGRAM OF AUTODESK 2017

Important: It is recommended to disable the internet connection before activation.

1. Open the Autodesk program (autocad civil 3d, etc) and click on "Request Number" - Activate

- Use as "Serial number" any of the following codes:

```
606-6969699
607-9898988
400-4545454
```

- Use the "Product key" according to the program being installed: See the product key at the end.

Note 1: If appears when you click on "Activate" that the serial number is incorrect, we just have to close the window and click again on "Activate".

Note 2: Before clicking "Activate" can disconnect the internet connection and thus prevent incorrect serial number out.

2. Once recognized the serial number, select "I have an activation code from Autodesk" and copy the code "Request code".

3. Run as administrator "vf_adsk2017" either 32-bit or 64-bit (depending on the computer).

Note 3: To run as an administrator does the following: right click on the keygen and click "Run as administrator".

4. In the window keygen click on "Men Patch" (If it has successfully "successfully patched" appears).

5. In the window keygen paste the "Request code" in "Request" click on "generate" and copy the generated code.

6. Go to the activation window and paste the generated code, then click on Next.
